

Growing Crops for Growing

The first profession that God gave to His new creation, man, was farming. Our farmers feed the world with their grains, corn, beans, and livestock.

Our Crops for Camp Program helps farmers utilize God's blessings to help us nourish the spiritual lives of the children we serve at Lutheran Island Camp and Christ Serve Ranch.

It is a simple process that helps the farmer with taxes and helps the camp provide quality programs.

Crops for Camp Program

Feeding the souls of the
children we serve.

○ A wagon load for Camp. ○

God continues to bless us with abundant harvest.

○ You shall not delay to offer from the fullness of your harvest . Exodus 22:29 ○

There is a great way for your farming operation to provide spiritual nourishment for the campers of Lutheran Island Camp and Christ Serve Ranch. God has blessed you with abundance and asks that you give back for the work of His kingdom.

By gifting grain, corn, and beans directly to camp through your local elevator, you can do that with some significant tax advantages.

It is a simple process. You haul in a load or two of last year's crop and state that the grain belongs to the Lutheran Island Camp Foundation. Your gift than will go toward the wonderful ministry of Lutheran Island Camp. You will receive tax advantages by doing this.

There is much more information at our website, www.islandcamp.org, or you can call us and we'll send you the information along with the forms that

you may need.

What will camp do with the funds? That's up to you. You may designate them for a specific project or allow us to use them for the greatest need. Those needs include camperships, refurbishing the camp, purchasing needed equipment, and providing long term financial stability.

For more information, you can contact Lutheran Island Camp.

“The first time we received a check from the elevator, we were shocked. The farmer had done the whole thing on his own and we were delighted. Now it’s fairly routine for farm families to give this way.” Bill Schultz, Director of Planning and Resource Development
