

UNCOVERING THE TRUTH ABOUT CREATION CONFERENCE

HOSTED BY CHRIST SERVE RANCH
AT LUTHERAN ISLAND CAMP
45011 230th St. • Henning, Minnesota
OCTOBER 26-27, 2018

Dr. James Johnson
Chief Academic Officer

Dr. Jake Hebert
Research Associate

Dr. Jim Johnson and Dr. Jake Hebert will speak on biblical creation at the Uncovering the Truth about Creation Conference held at Lutheran Island Camp near Henning, Minnesota. They will answer some of the most common questions about creation and exalt Jesus Christ as both Creator and Savior.

Where did everything come from? The Bible says God is the Creator. But did God create everything in six days like it says in Genesis, or did He use evolution to create? What about dinosaurs? Did they co-exist with humans, or did they die out millions of years ago? Genesis provides the answers to these and other origins mysteries. Learn about the scientific evidence that supports the Bible at ICR's Uncovering the Truth about Creation Conference.

the SPEAKERS

Dr. Jake Hebert earned a master's degree in physics in 1999 from Texas A&M University and a Ph.D. in physics in 2011 from the University of Texas at Dallas, where he did cutting-edge research on the connection between cosmic rays, solar activity, and weather and climate. He joined ICR in 2011 and is currently researching the post-Flood Ice Age, the dating methods used to assign ages to the seafloor sediments and deep ice cores, and cosmology, among other research endeavors.

Dr. James Johnson serves ICR's Christian education programs. Previously he taught for LeTourneau University, Dallas Christian College, and Concordia University Texas (history, ethics, biosciences, ecology, apologetics, evidence, law, and international studies). Dr. Johnson's forensic science background includes a J.D. (University of North Carolina, 1984), trial attorney and judicial experience, two post-doc certifications, and American Academy of Forensic Sciences membership.
