8:00 – Breakfast

8:45 – Flag Raising

9:30 – Ice Cream Social

10:00 – Closing Service

11:00 – Check Out

Frequently Asked Questions

1. Does my child need to bring equipment?

Yes, Big Fish campers are expected to have their own equipment and know how to use it.

2. Where will the campers be fishing?

Campers will be fishing out on East Battle Lake from boats as well as occasionally from the shoreline of the Island.

3. If my child has a friend coming along, will they get to stay with them?

When you register your child there should be an option to put down cabin mates, make sure to put your camper's friends down under that and we will make sure they will be together!

4. Will the campers have opportunity to enjoy traditional camp activities?

During most days your camper will spend the majority of time out fishing. They still have an opportunity to swim every day, and counselors usually get some traditional activities in during the evenings during cabin time.

5. What happens if my child gets homesick?

Homesickness is common among campers, especially those that are younger and are not used to staying away from home. Our staff is trained to work with children who are homesick, and work with campers to help them enjoy their time at camp! Please do NOT tell your campers that they can call home, studies done by the American Camping Association and the Christian Camp and Conference Association have shown that this increases homesickness and increases the child's odds of needing to be sent home.
