

Other Events:

Creation Photography and Art:

Join other photographers and artists who have a special desire to learn how to capture God's magnificent creation through their art. Led by a professional photographer, you'll see nature as it gives birth, blooms, takes to the sky, and brings forth beauty.

June 6-11 Cost \$250

Preparing for College:

This weekend event will be led by Brian Young. Brian will provide resources and information needed by young people so that they can faithfully reflect their Christian values and beliefs. This is a must for juniors and seniors in high school.

June 11-13: Cost-\$89 (Price reduced)

Teaching Your Family about Creation:

This week-end event will help parents and children learn about the most up-to-date creation science and how to teach and live it. They will discover that much of the "evidence" of evolution is based on false information and false premises. This will be a great opportunity for who want to have the tools to respond to questions and challenges to our faith.

June 12-14: Cost-\$75 per person, children 5 and under free, maximum of \$300.

Visit our website to register or call us.

Come and explore God's Creation.

Creation-Science Environmental Learning Center at Christ Serve Ranch

Telephone: 218-583-2905

The role of the Creation-Science Environmental Learning Center

Our Creation-Science Camps are intended to provide fun, education, and an opportunity to learn and grow. We combine the very best aspects of camp life with the excitement of explosions, construction, destruction, blastoffs of rockets, hunting insects and animals, getting lost and found, and lots of other activities that will teach in new and interesting ways. We use God's word as a truthful presentation of the facts of creation, the Flood, man's sinful nature, and our salvation through Jesus Christ. These events are all important and interrelated.

Through the Creation-Science Environmental Learning Center, youth and adults will have an opportunity to observe and participate in God's creation in unique and exciting ways. Come and join us – be a part of God's creation.

"Beware lest any man spoil you through philosophy and vain deceit, after the tradition of men, after the rudiments of the world and not after Christ." Colossians 2:8

"We demolish arguments and every pretension that sets itself up against the knowledge of God, and we take captive every thought to make it obedient to God." II Corinthians 10:5

A program of Lutheran Island Camp

Are they simply an evolutionary marvel or the fulfillment of Genesis 1:22 "...let the birds increase on the earth."

Young Scientist Camp

Join us for the Young Scientist Camps (10-15 year olds) and Creation Safari Camps (8-11 year olds) and explore science as you have never seen it before. Our Creation-Science Environmental Learning Center will be the site of learning, spiritual growth, fun, excitement and new experiences.

Young Scientist Camps

Join us for 5 days of fun and excitement as participants use science to better understand God's creation. You'll

Christ Serve Ranch has at least 7 different biomes that demonstrate the diversity of Creation

freeze things with liquid nitrogen, blow things up, shoot off rockets, and participate in other great and fun experiments.

Youth will learn to respectfully defend their faith while learning that the Bible and science are not in conflict. Brian Young

will lead the program.

Dates: June 13-18 and June 27-July 2

Ages: 10-15 years old

Cost: \$325 (Parents or teachers \$125)

Creation Safari Camps

Creation Safari Weeks These 5-day long camps for 8-11 year olds will allow children to see nature from a creation perspective. They will have activities including excavation of animal bones, "hunts" for animals, flowers, and special plants; trapping of insects, rodents, and microscopic pond inhabitants; orienteering, Bible study focusing on creation and messianic prophecy; campfires, fishing, sports, and crafts that are "creative".

Dates: Safari Week 1 July 11-16; Safari Week 2 July 18-23; Safari Week 3 August 8-13.

Ages: 8-11 year olds

Rates: \$295 (Parents or teachers \$125)

Deposit: \$75

The Creation-Science Environmental Learning Center.

Believed to be one of the first, if not the first, environmental learning center devoted exclusively to teaching creation-science, C-SELC is located on Christ Serve Ranch. This 275-acre piece of property has at least 7 biomes, including lake, pond, prairie, native forest, cultivated forest, lawn, and meadows. It has abundant wildlife reflective of the region, including whitetail deer, turkeys, fox, waterfowl, forest rodents, prairie wildlife, and over 70 species of birds. The woods and prairie contain plant life that includes the most common to the very rare.

Lutheran Island Camp

C-SELC is a program of Lutheran Island Camp and Christ Serve Ministries. Lutheran Island Camp will be the site for campers to be **housed and eat most of their meals**. It provides excellent recreational opportunities including: archery, softball, volleyball, soccer, basketball, disc golf, boating, kayaking, canoeing, fishing, and one of the finest beaches in the upper Midwest. Participants will have ample time to use all of the above facilities.

Christ Serve Ranch and Lutheran Island Camp are only 3 miles apart. C-SELC uses both properties for its programming.

Parents or other adults who may be transporting campers are encouraged to contact the camp about availability for staying in one of our cabins or in our Retreat Center.

Spring Programs.

New this year will be the opportunity for parochial schools and home school students to participate in our Young Scientist Programs during May. Your group can arrive on Monday and leave on Thursday or Friday. We'll provide quality programs, lodging, meals, and more. Plan your trip to C-SELC to include a stop at the Mall of America, or any number of other stops along the way. We'll recommend some great educational sites. Costs will range from \$110 per person for a 3 day event to \$220 for a 5 day event. Contact us early.

Staff

Lutheran Island Camp will provide qualified, trained counselors to work with campers. Counselors generally have completed at least one year of college and have

training in communication, problem solving, and group dynamics. Our goal as a staff is to make sure your child has a memorable and delightful experience at Lutheran Island Camp and Christ Serve Ranch.

Brian Young is the founder of CIA (Creation Instruction Association). He will be leading both weeks of Young Scientist. Brian is a noted author, lecturer, speaker, and evangelist who uses both scientific and Biblical evidence to support a literal six-day creation and a young earth that is thousands not billions of years old. He debunks evolution and Darwinism while raising up the cross of Christ as the way of salvation from the sin that man fell into shortly after creation.

Brian lectures and debates throughout the country and has been challenged by some of the leading critics of a literal creation.

Brian Young loves to work with youth. He is an educator by vocation and an evangelist by avocation. Young Scientists will grow immensely by this experience. Because of kind donors, we are able to offer this program at a rate nearly 40% less than what it actually costs. However, if cost is an issue, please contact us and we will work something out!

Educators and parents, we welcome you to come along with your students. For every 10 students who come, we are committed to providing one free week to a teacher so that they can learn how to teach creation science. Regular rate for parents or educators (\$125)

While our teaching and Bible Studies will be done from a Lutheran perspective, we welcome people from all Christian denominations.

Both private and public school students, as well as home-schooled students are welcome to attend.
